

Ulefone **Armour-X3**

During the entire time none of the outdoor cell phone can take pictures underwater. With Ulefone Armour X3 you can take pictures underwater. With a cheap outdoor smartphone you can take pictures and videos underwater. No need for the waterproof case.

If you are looking for a rugged, value for money phone with a large battery that will help you enjoy outdoor or underwater activities for less. Please note our Ulefone Armour X3, the best budget, but a sturdy, high-performance phone from 2019.

The Armour X3 is a superb, rugged and value for money smartphone, featuring 32GB memory, Android 9, underwater mode, glove mode, custom button, face ID, G-sensor, P-sensor, L-sensor, E-compass, 5000mAh battery, GPS, COMPASS, Bluetooth 4.0, and is a 3G cell phone.

UNDERWATER MODE

Armor X3 will bring you creative underwater mode, which enables you to conveniently take pictures and video recording underwater, and you can even complete all the operations with single hand. It will easily capture every wonderful moment for you whether you are swimming or diving!

Not only, have you ever in such trouble before? When you need to take a shower and want to take the phone but concern your lovely phone would be damaged by water, which is so annoyed. But now, you can enjoy your comfortable shower while watching great movies, TV shows or others programs. You even can play in snapchat, instagram, facebook, twitter, and so on. What an awesome mode! You won't regret to own this phone! Come and have a try!

LARGE BATTERY

5000mAh battery along and smart energy-saving management. it offers you the feeling of security no matter calling, listening or playing a whole day with one single charge.

GLOVES MODE

You know how annoying is when you are wearing gloves and working under severe weather or extreme environment, your phone is ringing and you have to take off your gloves just to answer. But now, the gloves mode allows you to work with the touch screen of your device while wearing the gloves. It not only supports all the touch-screen gloves in the market, also some normal cotton gloves within 1.5mm thickness and some leather gloves. Everything becomes more easier.

FACE RECOGNITION

Revolutionary face detection technology enables you to quick access your personal phone in 0.2s without any other move. Whether you have wet hands or are wearing gloves, face unlock can still unlock your phone immediately.

IP68/IP69K PROTECTION GRADE

Certified to highest IP68/IP69K rating, it can handle 30 minutes of immersion in 1.5 meters of water or 24 hours of submission in 1 meter of concrete. Meanwhile, it can also withstand big drops up to 1.2 meters. No matter how hard the condition is, with water-resistance, dust-resistance, shock-resistance, Rugged design to prevent damage from knocks and scrapes. The whole body of the phone are actual waterproof, every hole got a protection layer that blocked the water out.

CUSTOMIZED BUTTON

The customized button on the left enables you to optionally set the button quick access to video recording, flashlight, screenshot, underwater photography, SOS emergency call, which is so convenient and practical to use. And it can arouse all the built-in or downloaded apps in the phone. You can also set it as a PTT (Push-to-talk) button, enjoying effective and economical communications without a hitch, making your Armor X3 an essential tool for outdoor activities.
